

grain of hope 58:10

Grain of Hope 58:10 Exists to break the cycle of poverty by feeding the hungry and helping those in trouble. We believe that we are apart of the plan to help end the social injustices in this world. Proverbs 31:9 states, "Yes, speak up for the poor and helpless, and see that they get justice."

Why Grain: 1 out of 3 kids will die in Burkina before they reach the age of 10 because of malnutrition. If someone eats one meal a day in Burkina Faso, they are considered middle class. The average family of 4 will consume the equivalent of a gallon jug filled with grain for 1 week. It only costs \$50 dollars to buy one 50 lb. bag of grain which would feed 6-8 people for an entire month.

Why water: 1 out of every 6 babies that are born in this world will be born with out access to clean water. Children starting at the age of 11 yrs. old will have to walk up to 5 miles one way with a 5 gallon water jug, wait in line, fill the water jug and then carry it back home. When the 5 gallon water jug is full, it weighs close to 40 lb. Since children have to do this they cannot attend school, there is just not enough time.
